FOR IMMEDIATE RELEASE 3/16/16

Control Solutions, Inc. Announces Company Name Change

Gig Harbor, WA: Control Solutions, Inc. announced today that it will be named POSDATA Group, Inc., effective immediately. The name change is part of a re-branding initiative and corporate restructuring.

“The rebranding will allow us to better leverage our marketing efforts and create a greater impact on the market” said Jeffrey Creighton, company President. “All parts of the business will now go to market as POSDATA Group as we emphasize our leadership position in providing a full range of transaction processing technologies.”

The automatic identification, mobile computing and wireless networking part of the company, previously doing business as Compsee, will operate now as POSDATA Group - AIDC.

Bill McCubbins, Executive Vice President, will be responsible for managing sales of all product lines. In addition to AIDC products, POSDATA Group markets payment systems and devices, managed services such as logistics, deployment and key injection, and mobile software solutions for field data collection.

The name change will be phased in across all aspects of the business in the relatively near future.

About POSDATA Group

POSDATA Group is a leading payment systems distributor as well as a nationwide AIDC VAR and integrator.

POSDATA Group provides AIDC, mobile computing and RF systems, labeling systems and data collection solutions for a variety of markets, including manufacturing, distribution, transportation, retail, construction and healthcare.

POSDATA Group is also the most knowledgeable and trusted distributor of payment

systems and devices in the United States, with full key injection and deployment capabilities.
